

WOW LOGISTICS

THIRD-PARTY LOGISTICS

Maximize Your Storage Efficiency

Fluctuating inventory levels lead to changes in labor, transportation, and space requirements throughout the year. Many companies choose to outsource their storage to gain access to additional space and resources when they need it.

WOW Logistics is an industry-leading storage provider with more than 40 years of experience offering ambient and cold storage warehousing solutions. We run our third-party logistics (3PL) facilities using a top-tier warehouse management system (WMS) that's fully configurable to align with our customer's unique requirements. Additionally, WOW's Customer Service Portal provides 24/7 access to invoices, release orders, ownership transfers, and trailer inspection records

FLEXIBILITY AND SAVINGS

- Flexibility to adjust as your requirements change and only pay for the space you need
- All-inclusive pricing structure
- Resources to locate a warehouse for your product in the right geographic location

FOOD PRODUCT EXPERTISE

- Warehouses ASI audited at food processor level and all locations score 99 percent or above
- Developed our own food safety manual for training and process management
- Effective application of Food Safety Modernization Act (FSMA) and Hazard Analysis & Critical Control Point (HACCP) principles

SUPERIOR SYSTEMS

- Access to top-tier WMS that provides full product visibility
- Cycle counting and spot checks to validate inventory numbers
- Automated facility audits that drive food safety regulatory compliance
